Project Name	Project – Plasma Donor Application
Maximum Marks	2 Marks

#### Problem Statement :

During the COVID 19 crisis, the requirement of plasma became a high priority and the donor count has become low. Saving the donor information and helping the needy by notifying the current donors list, would be a helping hand. In regard to the problem faced, an application is to be built which would take the donor details, store them and inform them upon a request.

#### PS-1: Donor
